

# Sequences

Rules: Apply standard sudoku rules and moreover the digits along the grey lines are arithmetic sequences. It means that the difference between two following digits along the line is the same and the digits are not repeated there. (e.g. 1-3-5 or 9-8-7-6.)

KP SQ 1

# Sequences

Rules: Apply standard sudoku rules and moreover the digits along the grey lines are arithmetic sequences. It means that the difference between two following digits along the line is the same and the digits are not repeated there. (e.g. 1-3-5 or 9-8-7-6.)
